RUPAK GUPTA

Full Stack Developer · 7+ Years Experience

rupakgupta265@gmail.com | +91-8382875958 | New Delhi | Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Enterprise Full Stack Developer with 7+ years shipping production SaaS across construction, HVAC, e-commerce, and HR tech · cutting API response times 30–40%, integrating 3 payment gateways (Stripe, Razorpay, Authorize.Net), and supporting 10K+ users on multi-tenant platforms. Proficient in Laravel (8/10/12), PHP (7.4/8.0/8.2), Next.js, React.js, and Vue.js (2/3); deep expertise in RESTful APIs, OAuth2/SAML2 SSO, SQL triggers, background cron schedulers, and data visualization (amCharts). Actively leverages AI-assisted development tools (Cursor AI, Claude Code, GitHub Copilot, Gemini) to accelerate delivery and improve code quality.

CORE TECHNICAL SKILLS

Frontend:	React.js, Vue.js (Vue 2 & Vue 3), Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, jQuery, Bootstrap, Tailwind CSS, Material UI, amCharts
React.js:	React Hooks, React Router, JSX, Context API, Redux Toolkit, Reusable Components, React SPA, Webpack, Vite, SSR, SSG
Vue.js:	Vue 2 & Vue 3, Vuex, Pinia, Vue Router, BootstrapVue, Vue CLI, Vue SPA, Virtual DOM, Reactivity System, Composition API, Options API, Vite, Vue Test Utils
Backend:	PHP (7.4/8/8.2/8.3), Laravel (8/10/12), CodeIgniter, Node.js, Sequelize, Python, REST/SOAP APIs, MVC Architecture, Cron Jobs, Schedulers, SQL Triggers
DB & Cloud:	MySQL, PostgreSQL, MS SQL Server, Firebase, AWS S3
Integrations:	Stripe, Razorpay, Authorize.Net, Microsoft Graph, Dropbox, Sage Intacct
Auth/Tools:	OAuth2, SAML2 SSO, Google 2FA, Laravel Passport/Sanctum, Spatie RBAC, Redis, Linux, PHPUnit, Git, VS Code, PhpStorm
AI Tools:	Cursor AI, Claude Code, GitHub Copilot, Gemini, OpenAI Codex

Methodologies & Project Delivery: Agile/Scrum, Sprint Planning, User Stories, SDLC

WORK EXPERIENCE

Software Engineer (Full Stack) — Jul 2022 · Sep 2026

Galaxy Weblinks Ltd · Tech: Laravel, PHP 7.4/8.2, Vue.js 2/3, Next.js, Sequelize, React.js, Python, MySQL, SQL Triggers, Cron Jobs

- Led full-stack development and migration of enterprise modules for **Pronovos** (PHP/Laravel to Next.js/amCharts) and **PlanningForProfit**, implementing SQL triggers and background cron schedulers to automate billing statements and email logs, while cutting API latency by 30–40%.
- Architected multi-tenant portal auth and payment flows, integrating OAuth2/SAML2 SSO, Google/LinkedIn logins, Google 2FA, and Spatie RBAC with payment gateways (Stripe, Razorpay, Authorize.Net).
- Built data-driven client dashboards and automation tools, including Gemini AI-assisted Change Order drafting, passwordless dispatch dashboard verification via Job Site # and License Plate, and managed sprint-wise modules delivery.

Software Engineer (PHP / Full Stack) — Dec 2018 · Jun 2022

Prakhar Softwares Solutions Pvt. Ltd · Tech: PHP 7.4, Laravel, Vue 2, jQuery, WordPress, CodeIgniter, MySQL, Razorpay

- Engineered e-governance and recruitment portals (**Naukriyan.com**, **BecilJobs.com**) with role-based access panels, video resumes, custom candidate screening questionnaires, and consultant commission modules.
- Developed multi-channel payment flows (online Razorpay + manual in-office receipts) alongside financial year tracking dashboards and charting systems to graph cash flows against government Job IDs.
- Built step-by-step manual recruitment status pipelines from application to onboarding with document attachments, and exposed category-wise REST APIs to integrate job listings onto external company career pages.

KEY PROJECTS

1. PlanningForProfit [Vue.js / Laravel]

URL: https://app.planningforprofit.com/login

Tech: Laravel 10, PHP 8.2, Vue 3, MySQL, Stripe, wkhtmltopdf, Pinia, BootstrapVue, Gemini CLI, Claude

Company: Galaxy Weblinks Ltd

HVAC/home comfort platform for job pricing, gross margin management, and full sales proposal lifecycle.

- Engineered end-to-end proposal lifecycle from creation and multi-tier pricing (Good/Better/Best) to PDF generation, email delivery, and digital e-signature flow with OTP verification.
- Architected a RESTful API layer (10+ endpoints) and Vue SPA frontend with full CRUD, status tracking (Draft · Sent · Viewed · Accepted/Signed/Rejected), Proposal ID system, and 4 transactional email workflows.

2. Construction Intelligence Cloud (Pronovos) [PHP / Laravel / Bootstrap / Next.js]

URL: https://app.pronovos.com/login

Tech: PHP 7.4/8.2, Laravel 12, Next.js, MySQL, MS SQL Server, Eloquent ORM, SAML2 SSO, Spatie RBAC, SQL Triggers, Cron Jobs, amCharts, Gemini AI

Company: Galaxy Weblinks Ltd

Cloud-based construction platform for financial tracking, change order management, RFIs, estimating, and facilities management.

- Delivered end-to-end Facilities Management module: work order lifecycles, vendor/client quote workflows with auto-numbering, PDF export, attachments, and email logs driven by SQL triggers and a cron scheduler.
- Developed Change Order Request (COR) module with full CRUD, line items, tax calculations, revision history, and master settings. Included amCharts visualizations for interactive financial dashboard reporting.
- Contributed to Gemini AI-assisted Change Order creation, automatically generating properly formatted COR drafts from user inputs.

3. Resai · AI Resume Builder [React.js / Next.js]

URL: https://resai.co/en/home | https://app.resai.co/

Tech: React.js, Tailwind CSS, Next.js, Material UI, Python, PostgreSQL, Razorpay

Company: Galaxy Weblinks Ltd

AI-powered resume builder with credit-based Razorpay downloads; supports English and Hindi.

- Developed bilingual (English/Hindi) landing page using React.js and Tailwind CSS, redirecting to Next.js and Material UI app workspace accessed via Google and LinkedIn OAuth.
- Integrated backend REST APIs (powered by Python & OpenAI) to analyze resumes, calculate CV scores, list skill gaps, and suggest courses to bridge gaps.
- Designed a multi-template resume editor workspace with a credit-based download model (3 free credits, with Razorpay payment gateway integration to purchase more).

4. Hall Constructor · Ticketing System [Vue.js / Laravel]

URL: https://halltickеting.com/account/login

Tech: PHP 7.4, Laravel 8, Vue.js 2, Vuex, Bootstrap, MySQL

Company: Galaxy Weblinks Ltd

Web application for Hall Contractors to manage daily ticketing, truck sourcing, driver timesheets, and invoicing across roles.

- Developed dashboards for Admins (onboarding, timesheet approvals), Brokers (truck registry, driver onboarding), Foremen (truck sourcing, job cards), Project Coordinators (invoice audits), and Drivers (working hour logs).
- Programmed passwordless driver portals accessed via Job Site # and License Plate to securely review total working hours.
- Prepared user stories and managed sprint-wise task/module deliveries to track progress and complete the project within timeline.

5. 24HourDigitizing · Embroidery E-Commerce [Next.js / TypeScript]

URL: https://www.24hourdigitizing.com/

Tech: Next.js, Sequelize, TypeScript, Authorize.Net, MySQL, AWS S3, Cron Jobs, Schedulers

Company: Galaxy Weblinks Ltd

Embroidery e-commerce platform for digitizing/vector orders with 3 user types and Authorize.Net subscription plans.

- Developed role-specific panels (Customer, Vendor, Admin) and integrated Authorize.Net payment workflows for credit card checkouts, solvency holds (up to $50), and subscription billing.
- Constructed aging ledgers for outstanding invoices using custom grace periods (Net 15/30/45), color-coded warnings, and automated statement generation.
- Integrated AWS S3 cloud storage for design file distribution and created client-side attachment compression; set background cron-scheduled reminders for outstanding invoices and renewals.

6. Naukriyan.com · Job Portal [Laravel / Vue.js]

URL: https://naukriyan.com/

Tech: PHP 7.4, Laravel 8, Vue.js 2, Vuex, MySQL

Company: Prakhar Softwares Solutions Pvt. Ltd

New-age job portal connecting employers and job seekers across e-governance and corporate sectors.

- Engineered custom modules for Admins, Jobseekers, Employers, and Consultants; built pre-screening application questionnaires (with global default question banks) and video resume uploads.
- Developed hiring consultant commission tracking workflows supporting flat-rate and monthly placement models.
- Exposed category-wise REST API endpoints to populate job openings dynamically for external career page sites (prakharsoftwares.com/career), redirecting application flows back to the main portal.

EDUCATION & CERTIFICATIONS

MCA · FGIET College, Raebareli	2018 · 76.85%
BCA · MCMT College, Varanasi	2016 · 67%
12th (CBSE Board)	2011 · 54.4%
10th (CBSE Board)	2009 · 62.4%

Professional Training & Certifications: Google (via Coursera) AI Fundamentals; be10x AI Tools Workshop; 3-month School Management System (Core PHP, MySQL, MVC architecture, relational database design); internal training in Android, Firebase, and SQL.
